

## Emmanuel Baptist Church of Raleigh, NC, ushers in new era of worship with nursery paging system from HME Wireless

ATLANTA, GA — February 6, 2014 — The Emmanuel Baptist Church (EBC) of Raleigh, NC is now using [church nursery pagers](#) from HME Wireless to give members added confidence in its nursery program. A transition in leadership and a growing congregation precipitated the need for a new [church paging system](#).

“We want our parents to feel confident that their children are well cared for,” said Billy Rave, Associate Pastor of Youth and Children at EBC. “The guest pagers were the first step in an entire nursery makeover, and we’ve been very happy with the results.”

EBC counts on 20 [nursery pagers](#) from HME Wireless to keep its nursery operating at peak efficiency. The last five pagers are reserved for first-time visitors, so the pastor can deliver a customized message inviting them to learn more about membership.

“Our previous **church paging system** wasn’t representing EBC very well,” said Rave. “I haven’t received one complaint since we started with **HME Wireless nursery pagers**.”

“The fact that Emmanuel Baptist Church has trusted us to help take care of their members’ children is a testament to the quality of both our people and our technology,” said Russ Ford, Vice President of HME Wireless.
