

## **Nona Blue Modern Tavern complements high-end casual concept with guest paging from HME Wireless; praises “flawless” performance**

ATLANTA, GA — *March 19, 2014* — Nona Blue Modern Tavern of Orlando, FL, has called on [restaurant pagers](#) from HME Wireless to deliver on the expectation of great service from its customers.

“We haven’t had a single issue or complaint with our HME Wireless [restaurant paging system](#),” said founding partner Joe Davi. “They’ve been absolutely flawless.”

Nona Blue is a hybrid of high-end casual dining within a community tavern atmosphere. As a family restaurant with a generous bar and a strong connection to popular Irish golfer Graeme McDowell, Nona Blue is used to drawing big crowds.

According to Davi, the restaurant has wait times of about 45 minutes on an average night, and up to an hour and a half on busy nights. With [restaurant pagers](#) from HME Wireless, guests are free to have a drink at Nona Blue’s beautiful bar and not worry about missing their table.

“We’ve experienced other **restaurant pagers** before,” said Davi. “With HME Wireless, I was sold on the service, the warranty, and with the quality, size and look of the pager.”

“Nona Blue Modern Tavern sets high standards for service and quality, and we’re extremely proud to be a part of their success,” said Russ Ford, Vice President of HME Wireless.
