

## Fast casual paging system from HME Wireless helps deliver efficient service and a positive atmosphere at Pitza 42

ATLANTA, GA — February 11, 2014 — Pitza 42 of Conway, AR is now using [fast casual pagers](#) from HME Wireless to enhance efficiency and create a better dining experience for its customers.

Prior to using guest pagers, Pitza 42 staff would simply walk out into the restaurant calling names when an order was ready. Owner Austin Samuelson called the method “confusing” and noted that the restaurant pagers have made a big difference.

“The customer experience has been significantly better since we started with the [guest paging system](#),” said Samuelson. “It’s also saved us time and labor expenses.”

Following the lead of Tom’s Shoes, Pitza 42 sends money from every order it sells to an organization that helps feed hungry children. The ‘meal-for-meal’ concept fits right in with the restaurant’s mission to deliver healthy, affordable food with a purpose.

Samuelson noted that the [fast casual pagers](#) were “the next step in providing a positive atmosphere for our customers.”

“We’re not a franchise location, so we really try to figure out how to make things better for our customers,” he said. “I would recommend **HME Wireless restaurant pagers** to anyone who wants to improve service and efficiency.”

“Pitza 42’s meal-for-meal concept is truly unique in the fast casual business, and we’re proud to help fulfill their mission,” said Russ Ford, Vice President of HME Wireless.
