

Abundant Life Christian Church calls on nursery pagers from HME Wireless to enhance children's ministry and parents' peace of mind

ATLANTA, GA — *March 24, 2014* — Abundant Life Christian Church of Simi Valley, CA is now using [church nursery pagers](#) from HME Wireless to enhance parents' experience with its nursery program.

Started a little over a year ago, Abundant Life holds Sunday services at a mall in the town center of Simi Valley. The mall's center court area serves as the church nursery, which goes by the name, "Rockin' Kids Play Center". Distance from where services are held necessitated the move to [nursery pagers](#) from HME Wireless.

"We were looking for an effective way to communicate with parents," said Pastor George Taggart of Abundant Life. "We could use runners, but the guest pagers are far more efficient and less disruptive."

Taggart also noted that the new [nursery pagers](#) make parents feel more secure and comfortable with the church. And that's something a newer church like Abundant Life needs to in order to continuing growing.

"The pagers have really made a difference," said Taggart. "People can learn and grow and feel comfortable if they know their children are being taken care of."

"Abundant Life Christian Church is doing all the right things to grow its congregation, and HME Wireless is proud to play a part in their success," said Russ Ford, Vice President of HME Wireless.
