

**Depil Brazil Waxing Studio delivers on commitment to customer service
with guest paging system from HME Wireless**

ATLANTA, GA — *February 21, 2014* — Depil Brazil Waxing Studio of Plano and Dallas, TX, is using [guest pagers](#) from HME Wireless to deliver on its commitment to excellent customer service.

“All we care about is customer service,” said Depil Brazil Founder and CEO Andrea Wissing. “That’s why we opened with an HME Wireless [spa paging system](#).”

Depil Brazil staff members conduct waxing sessions in back-to-back 20 minute appointments. Using an HME wireless paging system, the front desk pages the waxing staff as soon as it’s time to get the next customer.

Wissing noted that she chose HME Wireless after researching the market and finding that its pagers delivered the best cost benefit. She was also impressed with HME’s customer service and the quality of its products.

“I care a lot about customer service and I was treated well by HME Wireless,” said Wissing. “I’d recommend their pagers with my eyes closed.”

Depil Brazil Waxing Studio has carried techniques from Wissing’s homeland of Brazil to form a successful business with two locations (and a third on the way).

“We’re proud to help a growing business like Depil Brazil Waxing Studio that shares our passion for treating customers well,” said Russ Ford, Vice President of HME Wireless.
