

Church paging system from HME Wireless supports commitment to child safety at Northridge Church of Christ of Shawnee, OK

ATLANTA, GA – December 16, 2013 — The Northridge Church of Christ in Shawnee, OK, is now using a [church paging system](#) from HME Wireless as part of its “safe church” program. Each parent that leaves their child in one of the nurseries receives a numbered [church pager](#) and signs in by that number. Anyone coming to the nursery must have a numbered guest pager to then receive the child and their belongings.

“Every Sunday, we have close to 250 members and visitors,” said Jennifer, a church spokesperson. “The nursery pagers have really made the check-in and checkout process much simpler.”

The nursery pagers have helped to improve members’ experience once inside the sanctuary as well. With the church paging system from HME Wireless, nursery staff can reach parents instantly with a simple, silent page, saving the inconvenience of locating parents and possibly disrupting the service.

“We absolutely love the convenience and would highly recommend the [church nursery paging system](#),” added Jennifer.

Northridge Christ of Christ has many outreach programs aiding and assisting homeless families with children and pregnant women. Northridge provides the families and women necessary tools to achieve long term self-sufficiency through a comprehensive program of temporary housing, transportation, case management and supportive services.

“We support each other in climbing the tall mountains of faith and life,” said Jennifer.
