

## South Blendon Reformed Church adds nursery paging system from HME Wireless to attract and benefit families

ATLANTA, GA — May 20, 2014 — South Blendon Reformed Church of Hudsonville, Mich. is now using [church nursery pagers](#) from HME Wireless to help attract more families to its growing congregation.

The new [nursery paging system](#) is part of the church's new mission to "Gather. Give. Grow. Go." In rethinking its worship service, Senior Pastor Mark Kleinheksel wanted to ensure that parents have a positive worship experience and feel secure that the nursery program is safe.

"Our community is changing and our goal is to attract and benefit more families," said Kleinheksel. "We think that the [nursery pagers](#) can help us do that."

Though the growing church has approximately 200 members, Kleinheksel noted that it has no staff, only volunteers. That made ease of use critical in its **nursery paging system**.

"The new guest pagers are very simple and very easy to use," confirmed Kleinheksel.

"South Blendon Reformed Church strives to make worship inspiring for its members, and HME Wireless is proud to play even a small part in that," said Russ Ford, Vice President of HME Wireless. "They take the safety of their members' children very seriously, and so do we."
