

ISC | HD™

IN-STORE COMMUNICATIONS SYSTEM

HANDS-FREE, TWO-WAY COMMUNICATION BETWEEN STAFF

ISC | HD provides hands-free, two-way communication that enables a natural conversation flow between multiple crew members. Employees can easily talk with the manager or other team members, no matter where they are located, to quickly address any food or service needs.

4 OF 15 USERS ARE ABLE TO SPEAK AT THE SAME TIME

HANDS-FREE COMMUNICATION

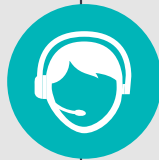

A SUPERIOR CUSTOMER EXPERIENCE

TWO-WAY SIMULTANEOUS COMMUNICATION

- + Streamline requests, tasks, and reminders between crew members by enabling up to four users to speak at the same time.
- + Capacity for 15 users total improves employee productivity and restaurant operations.

HIGH-DEFINITION AUDIO

- + Crystal-clear communication between crew members, regardless of where they are located within the restaurant.

HANDS-FREE OPERATION

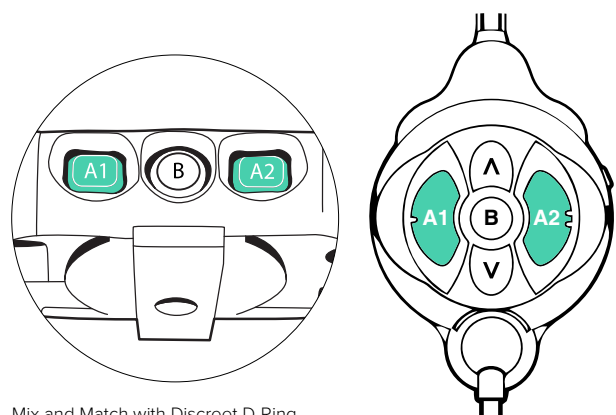

- + Configure headsets for open channel communication that enables members to talk with each other without having to press a button.
- + Crew members delivering orders can instantly address customers' needs while staying on task.

PLUG AND PLAY

- + User-friendly setup. No professional installation required.

FLEXIBILITY THAT MEETS YOUR BUSINESS NEEDS

Mix and Match with Discreet D-Ring and All-in-One Headset Options
