DATE AND TIME CHANGE

SYS30 Drive Thru Timer

Navigation

- **EXIT** will step back to the previouos screen
- The **+** and **–** keys are used to change your selections like AM to PM and YES to NO
- **ENTER** confirms your selection
- The **0-9** keys are used to input numbers
- The **←** and **→** arrow keys are used to move back and forward when you have to select different characters

Temporary Access Codes

In the event you need to enter a password to get access to the timer, please use these codes based on the current time of your system. Please note that they are only valid for **Sunday, March 8th 2020**:

|			
1 AM/PM = 4844		**7** AM/PM = 4842	
2 AM/PM = 4847		**8** AM/PM = 4845	
3 AM/PM = 4843		**9** AM/PM = 4848	
4 AM/PM = 4846		**10** AM/PM = 4841	
5 AM/PM = 4849		**11** AM/PM = 4844	
6 AM/PM = 4840		**12** AM/PM = 4847	

1

If you don't see this screen, push the **EXIT** button until it appears.

2

Push the **SET UP SYSTEM** button.

3

Push the **+** button until you see **SET DATE/TIME** flashing on the screen.

4

Push the **ENTER** button.

5

Verify the **Date** and **Time** are correct and that Daylight Sav is set to **NO**.

If you have any additional issues or wish to speak with one of our technical support representatives, please call us at 1-800-848-4468, and pick options 1, 2 and 3.
